Cashlogy Safe
more security for your business

It is the automated cash control solution
for those businesses that need greater
security at the point of sale.

Exquisite technology

Cashlogy Safe is the solution for those commercial establishments that look for an **extra bit of security.**

+ Security

Increase security for you and your employees. Stores the bank notes in a UL291 type safe. Reduce the frequency of cashing-up and optimise visits to your bank.

+ Time to yourself

Automatically balances the till and reduces the need to be always present at your business.

+ Peace of mind

Reduces shrinkage and fraud involving banknotes and coins.

Characteristic

2 different configurations

Cashlogy Safe E-Pay

The employee is the one who makes the payment.

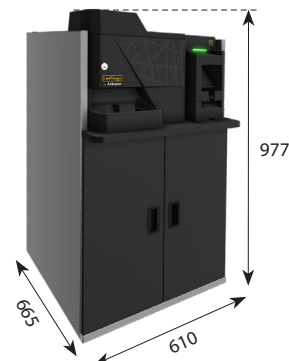

Cashlogy Safe C-Pay

The consumer is the one who makes the payment.

1. Employee 2. Consumer
